

The 9th Chinese International Congress of Vascular Medicine (CCVM 2012)
The 6th ISVH Asian-Pacific congress

First Announcement

On behalf of the Executive Organizing Committee, it is our great pleasure to invite you to participate the 9th Chinese International Congress of Vascular Medicine (CCVM2012) which will take place in Beijing, China, June 22-24, 2012, in-conjunction with regional forums of vascular health in Guangzhou (June 17-18, 2012) , Jinan (June 21-22, 2012)and Chengdu (June 18-22, 2012) .This congress is co-sponsored by the International Society for Vascular Health Chinese Branch (ISVH China), Chinese Social Work Association Vascular Protection Committee, Peking University Center for the Diagnosis and Treatment of Vascular Disease in Community, Medical Journal of Chinese People's Health Cardiocerebrovascular Edition, and Peking University Medical Press, co-hosted by Peking University Shougang Hospital, Guangdong General Hospital, Shandong Qianfoshan Hospital and Shanghai Ruijin Hospital and Sichuan Pixian People's Hospital.

The congress will continue the tradition to provide a high level international communication on vascular medicine by inviting experts from ISVH, the European Society of Hypertension (ESH), American Society of Hypertension (ASH), and other international and national academic organizations and important societies. We will offer an exciting opportunity to exchange ideas to the latest highlight in a broad range of clinical and experimental vascular medicine, including genetic background of vascular disease, angiogenesis, biomechanics, management and rehabilitation strategies of vascular events, early detection and intervention of vascular disease and arterial function change, prevention, treatment and rehabilitation of vascular disease, et al.

We cordially welcome you to join us for CCVM at Beijing, China in 2012!

Chairman of Scientific Committee

Beijing, P.R.China
